## GSP Airport receives \$5.2 million for infrastructure improvements

WASHINGTON Recently, U.S. Secretary of Commerce Gina M. Raimondo announced that Department's the Economic Development Administration (EDA) is awarding \$10.2 million in American Rescue Plan Act grants to support South Carolina as it responds to and recovers from the economic impacts of the COVID-19 pandemic. These grants are funded by the American Rescue Plan and EDA's \$300 million Communities Coal Commitment.

Investments announced will provide for infrastructure improvements at Greenville's South Caro-Technology Aviation Center and the Greenville Spartanburg Airport. The Aviation Center and the Airport are located 20 miles from Anderson County in South Carolina, where two coalfired units closed in 2014. The area is still recovering from this environmental and job loss impact. These grants are expected to generate more investments and build more resilient automotive and aviation industries to further diversify the regional economy. They will be matched with \$9.9 million in local funds.

"The Economic Development Administration is proud to support community-led economic development strategies to boost coronavirus recovery and response efforts," said

Assistant Secretary of Commerce for Economic Development Alejandra Y. Castillo. "Infrastructure improvements at the South Carolina Technology and Aviation Center and the Greenville Spartanburg Airport will support a strong and resilient economy in Greenville."

The EDA investments announced recently are:

Greenville Spartanburg Airport District, Greenville, South Carolina, will receive a \$5.2 million EDA investment for infrastructure improvements at the Greenville Spartanburg Airport – including expansion of the airport's apron and the extension of a roadway - to facilitate increased air cargo traffic. The project will be matched with \$3.4 million in local funds.

South Carolina Technology and Aviation Center, Greenville, South Carolina, will receive a \$5 million EDA investment to support the addition of high-speed loop infrastructure to the center's automotive test track that will enable manufacturers to conduct a variety of vehicle and systems tests. The project will be matched with \$6.5 million in local funds.

These projects were made possible by regional planning efforts led by the South Carolina Appalachian Council of Governments (SCACOG). EDA funds SCACOG to bring together the public and private sectors to create an economic development roadmap to strengthen the regional economy, support private capital investment, and create jobs.

This project is funded under EDA's American Rescue Plan Economic Adjustment Assistance program, which makes \$500 million in Economic Adjustment Assistance grants available to American communities. The Adjustment Economic Assistance program is EDA's most flexible program, and grants made under this program will help hundreds of communities across the nation plan, build, innovate, and put people back to work through construction or non-construction projects designed to meet local needs.

EDA's Coal Communities Commitment allocates \$300 million of EDA's \$3 billion American Rescue Plan appropriation to support coal communities as they recover from the pandemic and to help them create new jobs and opportunities, including through the creation or expansion of a new industry sector. Specifically, EDA has dedicated \$100 million of its Back Better Build Regional Challenge funds and \$200 million of its Economic Adjustment Assistance funds to directly support coal communities.

### Campeche chair

When decorating a room, it's fun to include something outof-the-ordinary. Perhaps you can find an unusual lamp or a modern painting, or a piece of furniture in a unique style. Try something new and go to an auction to see what's selling.

Neal Auction Company's recent auction was selling different styles of antique furniture, including a Campeche chair. It looked a lot like some modern chairs, but it had a single piece of leather curved to make the back and seat on a simple wooden frame. The back was tipped just enough to make it a perfect place to nap. The legs were upside-down capital C's, one on each side with a center stretcher. It was a perfect conversation piece.

The name "Campeche" comes from its use in the city of Campeche, Mexico, where it was popular in the late 18th century. Historians thought the name came from campeche wood, but most were made of mahogany. Some call it the "planter's chair." Thomas Jefferson had one of these he chairs called "Campeachy."

The chairs, similar to earlier X-frame chairs, were popular in Louisiana and shipped to New Orleans. They were used in Philadelphia by the 1830s and in London by about 1845. Some modern artists, including silversmith William Spratling, were creating similar pieces in the 1950s. The chairs are still being made and sold in the U.S. today.

**Q**: I have two curio cabinets labeled "Jasper." I purchased them in the 1960s from Harlem Furniture Co. in Dayton, Ohio. I was hoping that you could help me out with finding new keys! Thank

A: If owners of antique furniture collectors are lucky, their pieces have the original key. If you don't see a key, check to see if it's taped in a drawer or on the back panel. Don't remove the lock, it will damage the furniture. Call a locksmith. Ask an antiques dealer or auction gallery if it can suggest a locksmith who repairs antiques. There are master keys for most types of locks - old or new, furniture, house or filing cabinet, even clocks and coin-operated machines.

Tip: Old vs. new iron garden furniture: Old iron furniture usually weighs more, and the iron is smoother than new iron. Look for rust and faded paint, also. But remember, that too can be faked.

## Milliken prepares to launch major clarifier plant

Milliken & Company will begin production at its new clarifier plant soon in Blacksburg. This significant additional capacity will address strong worldwide demand for clarified plastic products. The company, a global manufacturer with plastic additives and colorants expertise, says this new, world-class facility will increase production capacity of its market-leading Millad® NX® 8000 polypropylene clarifier by more than 50 percent.

"This represents the largest clarifier plant investment in Milliken history," said Cindy Boiter, president of Milliken's Business. Chemicals "Engineering is complete, and we are in the process of commissioning the plant. When we launch production in the fall, it will allow us to address both current market needs and increasing demand for these products well into the future."

"Global demand for Millad NX 8000 clarifier has grown at an 11 percent compounded annual growth rate (CAGR) for each of the past nine added Boiter. "Global clarifier demand

Milliken's new Blacksburg plant will boost Millad® NX® 8000 polypropylene clarifier by more than 50 percent.

grew by 16 percent in just the past two years," outstripping the growth rates for global polypropylene (PP) resin. "All regions have contributed to the growth of clarified PP, with Asia leading the way."

A number of factors are driving this demand. Milliken's own customer research underscores the importance of being able to clearly see the products they are buying. Millad NX 8000 provides close to glass-like clarity in PP packaging, which improves customer confidence during their buying process, especially for food products. This clarity enables brand owners to replace PET, polystyrene, polycarbonate, and more with PP — shown by studies to be a more sustainable option.

The current soaring energy prices, meanwhile, have also spiked interest in any resins or additives like this one, which can help converters to save energy during processing. As a result of these certified savings, brand owners using PP clarified with Millad NX 8000 ECO can display a UL Environmental Claim Validation label on their injection molded parts.

Polypropylene is not only lightweight and durable; it also is one of the least energy-intensive polymers to make and recycle compared to other clear poly-

"Brand owners and packaging producers are seeing how Millad NX 8000 can contribute to improved environmental and manufacturing results. It is one of the more important clarifier developments in recent memory," said Global Vice President -Plastic Additives Wim Van

Additionally, the pandemic has dramatically altered many consumer habits, perhaps permanently, in the case of booming e-commerce and the growing popularity of fooddelivery services. Thinwall injection molded containers made using clarified PP - with their lightweight, durable and transparent characteristics have proven to be a popular solution to packaging challenges facing both the e-commerce and food-service industries. "We don't see that changing," said Van de Velde.

Milliken & Company is a global manufacturing leader whose focus on materials science delivers tomorrow's breakthroughs today. From industry-leading molecules to sustainable innovations, Milliken creates products that enhance people's lives and deliver solutions for its customers and communities. ## Unique ways to celebrate summer holidays

(StatePoint) Summer holidays often revolve around being together, but whether your family and friends are near or far, there are plenty of fun and unique ways to celebrate these holidays in-person or virtually. Here's a little history on a few annual summer occasions, and ideas for amping up the festivi-

Host a Memorial Day Celebration of Life. While Memorial Day weekend is often the unofficial start to summer filled with camping trips, beach parties and barbecues, it's important to remember that we commemorate this day to honor the legacy of those who have served and lost their lives in the U.S. Military.

You can embrace the bond with your family by having a traditional backyard party or picnic in

remembrance of those close to you who have served. Honor them by serving their favorite foods, playing their favorite games, or even writing your favorite memories down on a piece of paper and sharing them with the group.

Honor Juneteenth by Showing Your Appreciation for Black Culture. Juneteenth takes place on June 19 and commemorates the emancipation of thousands of slaves who were not aware of their freedom until that date in 1865. On this date, Union General Gordon Granger landed in Galveston, Texas with news that the Civil War had ended and that the enslaved were now free. And in 2021, Juneteenth was officially recognized as a federal holiday in the United States.

Many honor Juneteenth

with educational and family gatherings, supporting Black-owned businesses, and by visiting museums and exhibits dedicated to Black culture. You can also send a personalized message of love and inspiration. And& who better to deliver your message than Grammy Award-winning artist Alicia Keys? Her completely customizable SmashUp video greeting is specifically designed to celebrate the Juneteenth holiday.

Create a Custom Dad-Approved Experience this Father's Day. What better way to show your appreciation for the father figure in your life than by creating a day all about him? Think about his favorite hobbies and design an itinerary sure to receive the Dad seal of approval. Whether it's a fishing trip, creating your own backyard mini-golf course, or going on a brewery tour in search of the best local IPA, it's sure to be a Father's Day he'll remember.

If you can't be with Dad, sending a personalized video or ecard is a great way to show you care. These greetings are made just for him, and you can even add a gift card to one of his favorite stores.

Get Crafty for Fourth of July. Fourth of July is the peak of summer and commemorates the Continental Congress formally accepting the Declaration of Independence of the United States in 1776. Often enjoyed with food, fireworks, and parades, it's a bash that's anticipated all

summer long. Get into the patriotic mood by creating some original décor or USAthemed foods for your cookout or fireworks watch party. Try your hand at designing items like patriotic napkin rings,

American Flag-inspired desserts, painting outdoor items such as flowerpots red, white, and blue, or even making your own sparklers and lanterns to hand out to guests when they arrive. Then, after guests have settled into the festivities, add an extra layer of fun by using filterlike Selfie SmashUps to turn yourself and guests into Uncle Sam.

Each summer holiday is an opportunity to bring people together to make new memories. By thinking outside the box, you can truly make a splash this summer.
