# BMW donates \$1.25 million to preserve wetlands at Upstate park

Spartanburg - BMW Manufacturing announced recently that it will donate \$1.25 million to restore and preserve eight acres of urban wetlands at Unity Park west of downtown Greenville. ### Mustard pot

Mettlach, Germany, is a town known for manufacturing beer steins at the Villeroy and Boch factories since about 1842. They made all types of pottery.

It started in 1809 when Pierre-Joseph Boch established a company in the remains of a cathedral built in 786 A.D. To avoid destroying the trees used for the factory's fuel, a coal-burning kiln was developed by 1816. Famous artists were hired to create the designs. There were eight V&B factories making ceramics.

In 1836, Mettlach merged with Villeroy & Boch, forming a company run by Eugene, son of Pierre-Joseph. Modern improvements continued. They adopted new styles, new products like tableware, and new types of ceramics. After a fire destroyed the factory and records in 1925, they reproduced many old items.

Collectors since the 1970s pay the highest prices for the pre-fire pieces. "Earlyware Relief" pieces were made before 1880. They were formed in a mold, often to look like a tree trunk and sometimes tan colored. Molded pieces resembling vines were added and colored green or brown with platinum accents. Mettlach marks tell the story of a piece, with as many as nine marks on a piece.

### Chapman Cultural Center awards \$539,400 in grants to local arts and cultural organizations

Chapman Cultural Center recently awarded \$539,400 in General Operating Support (GOS) Grants to 11 arts and cultural organizations for the 2022-2023 fiscal year. The funds are the highest amount awarded since the 2019-2020 fiscal year and will be critical to supporting Spartanburg's arts and cultural community as it continues to recover from the pandemic. Grantees use GOS funding to support annual operating expenses and general funding to support and progress the mission of their organization.

In the last twenty-five years, through donations to the United Arts Fund, Chapman Cultural Center has awarded \$18 million in grants to strengthen, develop, and promote the cultural vibrancy in Spartanburg County in a sustainable way, and our community's creative ecology is stronger because of it.

Chapman Cultural Center is the leading Local Arts Agency in Spartanburg County. Each year, GOS grants are awarded based on a stringent application process to arts and cultural organizations that have been established as a 501(c)3 for three years or more and work towards advancing the arts and cultural vitality of Spartanburg County. Grantees are evaluated based on merit, need, evidence of sound management and fiscal responsibility, and service within Spartanburg County.

"We are thrilled to be awarding these grants as arts and cultural organizations emerge from the pandemic and strive to increase service to students and underserved citizens, and to bring together the community at the Chapman Center and at other venues throughout Spartanburg County. The arts and culture unite us and these grants represent important operating funds that sustain nonprofits in our area and enable us all to celebrate what makes our community so special and unique," said Daniel Mayer, President and CEO of Chapman Cultural Center.

This year, Chapman Cultural Center received additional funding through the American Rescue Plan grant from the National Endowment for the Arts to aid in the arts and cultural sectors' recovery from the pandemic. Chapman Cultural Center received \$250,000 in funding which was used to supplement and distribute GOS grants to eligible organizations. bought a Madame Alexander doll at a sale. ### Government charge cards require stringent oversight

By Richard Eckstrom, S.C. Comptroller

Government procurement cards, known as p-cards, are intended to streamline routine purchases such as for office supplies and small dollar items. Functioning like credit cards and used by thousands of state and local government employees Carolina, across South they're designed to make small expenditures more efficient often by eliminating the need for purchase orders, thus reducing the time and cost involved in processing paperwork or writing individual checks for small amounts to vendors that accept p-cards

allegedly misspending some \$40,000 in public finds, some of it using his p-card. That's just the most recent in a string of apparent abuses within local governments that have made the news in recent years.

In 2020, a Richland County Councilwoman was indicted on public corruption charges for using her county charge card for trips and personal items. A former Midlands prosecutor and one of his top aides were sentenced in 2019 for using their p-cards for personal luxury items; the former prosecutor served a year in prison and was disbarred, while the aide received a three-year probation sentence. In 2017, an employee of Charleston County's Emergency Management Department was charged with embezzlement after allegedly using her card to spend nearly \$25,000

trict governments often have insufficient oversight and internal controls in place over their p-card purchases, and it's a recipe for trouble. Local government officials need to step back and reassess whether they're doing enough to prevent problems, and consider the following steps:

ing, shoes, and fashion accessories.

\* When abuse is suspected, contact authorities immediately. Swift justice is a good deterrent. In the Richland School District One case, officials waited months before calling the police – a delay that likely complicates any investigation and sends the message that it's not an urgent matter.

When it comes to public dollars, we shouldn't tempt fate. Local government leaders must make sure their policies governing p-card use are stringent, clearly communicated, and followed to the letter.

Richard Eckstrom is a CPA and the state Comptroller. He's president of the National Association of State Auditors, Comptrollers, and Treasurers.

P-cards are certainly convenient. But they're also ripe for abuse.

on personal items. And for every criminal case involving p-cards, there are countless reports of the cards being inadvertently misused or used for purchases that appear to be frivolous. Unfortunately, the thing that makes them so convenient – allowing widespread use of p-cards to make small purchases without involving an entity's customary procurement staff - is often what makes self-dealing and careless spending so tempting. Add the fact that town, city, county and school dis\* Limit the number of cards in use. Some entities have literally hundreds of p-card users. Every card issued is one more opportunity for misuse.

\* Take a zero-tolerance approach to missing documentation. While most governments might require receipts and a supervisor's approval for p-card charges, it's not uncommon for a supervisor to sign off on expenditures that lack documentation. Card users need to know that's not acceptable.

\* Make sure all spending details, including for p-card spending, are available online. The more eyes on these expenditures, the better. Transparency helps deter misconduct and catch problems before they get out of hand.

\* Mandate annual p-card audits performed by an outside agency. The cost is well worth it when public trust is at stake.
